

## Price advantages against turn parts and conventional cutting procedures

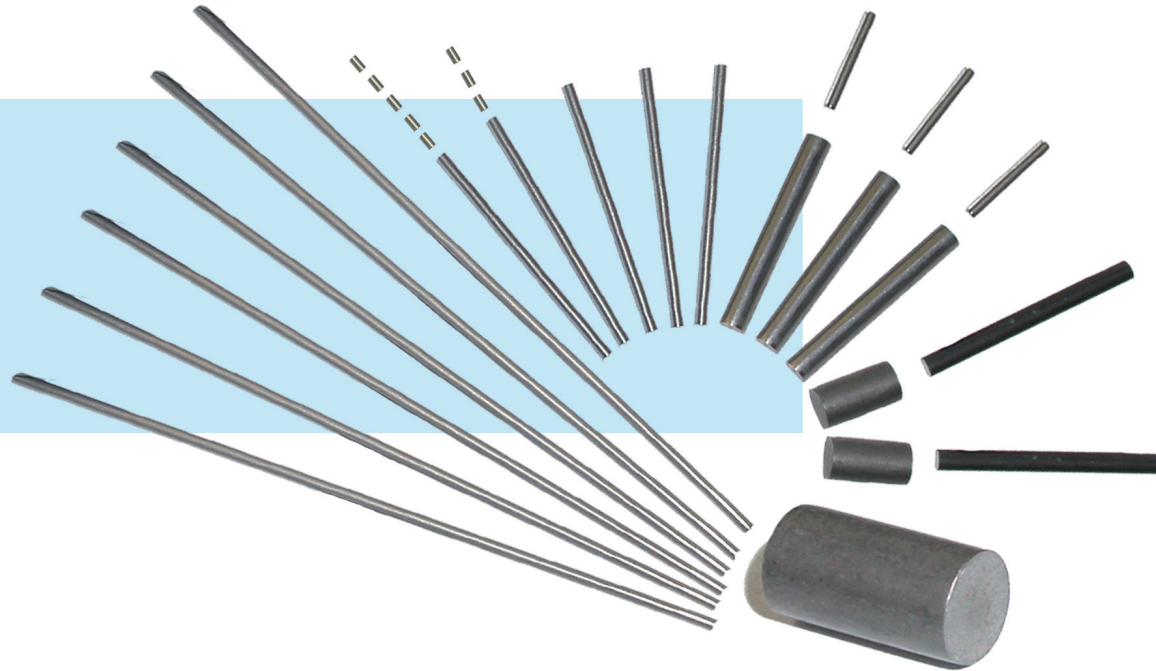

### Advantages of BAUMANN piston rods, axles, bolts and shafts

Cost advantages through new technology and "all in house" manufacturing

- High Speed Impact Cutting (HSIC)
- Deburring
- Coating
- Testing (100% testing upon request)

### Application areas

- For all areas

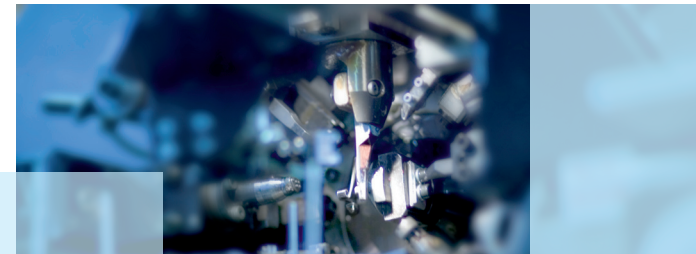

### Materials / dimensions

- Round or profiled wires
- Spring steels, stainless steels and special alloys
- Diameter from 0.8 mm
- Length from 14.0 mm

### Manufacturing technology

- High Speed Cutting with reduced burr
- Diverse end types as requested
- Surface treatment upon request
  - Roughness:  $> Ra 0.3$
  - Radius: Edges rounded
  - Corrosion protection
- 100% length and diameter testing upon request
